## Odyssey Premiere Reeds

Odyssey Premiere Reeds are crafted from the finest French cane by one of the world's leading reed manufacturers. Cane is selected by

its season and the textures of its fibres, which governs its quality, suppleness and resilience. While professionals can benefit from the fine balance, rich timbre and lively response of these high quality reeds, educators and students will find them long lasting and, most importantly, consistently playable.

Available for Clarinet, Soprano, Alto and Tenor Saxophones in the most popular strengths each pack contains three reeds.

## Grover Pro Introduces Innovative Tambourine 'Roll-Ring'

The new Grover Roll Ring is designed to aid concert percussionists with the execution of tambourine thumb rolls. This circular ring helps players easily create the friction needed to produce a smooth, even sounding "thumb" or finger roll. The 1" wide self-adhesive band is specially shaped to conform to the outer circular edge of a headed concert tambourine. It has a special non-permanent adhesive backing that makes it super easy to put on and take off in seconds. The Roll Ring is reusable and can be applied and stored numerous times. The Grover Pro Roll Ring is included free with the purchase of all new Grover Pro professional level concert tambourines.

## Humidpro from Lomax Classic

HumidiPro is the first case designed to keep clarinets and oboes at a perfect 45%-55% humidity. The case is airtight, watertight, and uses

a patented Humidipak pouch that actually adds or subtracts humidity as needed. HumidiPro will adjust the humidity throughout the wood of the instrument. This will prevent and restore changes in the bore and tone hole dimensions, and prevent serious cracking of the wood. HumidiPro cases are currently available for Bb clarinet, a double case for Bb and A clarinets, and also Oboe. Piccolo, Bass Clarinet, and Oboe/English Horn cases will be available by fall 2012.
